What are the roles and responsibilities of the CSD's board of directors (or equivalent), and are they clearly specified? Please provide details of the structure and composition of your Board together with their industry experience and responsibilities in governing the CSD. What are the qualifications to become a board member?

*PFMI: Q.2.3.1**AGC: 7d*

Polish legal system (Code of Commercial Companies and Law on the Management of State Property) provides general requirements concerning members of corporate governing bodies. According to the Code, KDPW as a joint-stock company has a dual governance structure (so-called two-tier board system), with a supervisory and a management board. Qualification requirements concerning specific educational background and professional experience in relation to the members of governing bodies of companies belonging to the State Treasury are set out in Art. 22 of the Law on the Management of State Property. They have to hold a master's degree, have at least 5 years work experience, including 3 years on senior position or leading a proprietary business, they may not be employed by any political party or any Member of Parliament nor remain in any conflict of interest with the Company. Any additional qualification requirements to appoint a Supervisory Board member are set by the shareholders, and for Management Board members – by the Supervisory Board. In KDPW these requirements include lack of criminal record and sufficiently good repute. Moreover, at least 2 members of the Supervisory Board have to qualify as independent members.

The Supervisory Board may comprise six to nine (currently 6) members, including a Chairperson and a Vicechairperson. There are 3 Committees within the Supervisory Board: Audit Committee, Risk Committee and Remuneration

Committee.

The Supervisory Board of KDPW continuously supervises the activities of the Company and its activities include: review of financial statements and Management Board reports, approval of the KDPW Rules, Rules of the Clearing Fund, rules of operation of the Investor Compensation Scheme, rules of the trade repository, appointment and dismissal of members of the KDPW Management Board and decision on their remuneration levels, appointment of a certified auditor, approval of long-term and annual corporate business and financial plans presented by the Management Board and consent for the establishment of commercial law companies.

The Management Board of KDPW may comprise three to five (currently 4) members, including a President and Vice Presidents.

The Management Board of KDPW oversees the affairs of the Company, manages its assets and represents the Company externally. In particular, the Management Board of KDPW prepares a draft of the KDPW Rules, the Rules of the Supervisory Board of KDPW, the Rules of the Court of Arbitration, as well as prepares drafts and adopts regulations governing the detailed operations of KDPW.

61 G03Q018

What are the election procedures?

PFMI: Q.2.3.2

AGC: 7e

The Supervisory Board represents shareholders. Members are appointed and dismissed by the Shareholders' General Meeting. The Members elect a Chairperson and a Vicechairperson and may elect a Secretary in a secret ballot. The General Meeting is valid and may adopt resolutions if at least half of the shares are represented.

62 G03Q019

What is the maximum length of time a board member can serve?

PFMI: Q.2.3.2

AGC: 7f

The term of a board member is set out in the Statute of KDPW. It amounts to three years constituting a joint term of office of the Board members. The rule concerns both the Supervisory Board and the Management Board of KDPW. The mandates of all Board members expire on the day of the Annual Meeting of Shareholders which approves the financial statements for the previous full financial year. Under Polish law there is no limit as to the number of terms of office, however, there is a limitation as to the duration of such a term, which in joint stock companies is up to 5 years.

63 G03Q020

How are the voting powers distributed amongst the board members (i.e. does each board member have one vote or do certain members have additional voting power)?

PFMI: Q.2.3.2

AGC: 7g

Each Board member has one vote. The Supervisory board: Resolutions are adopted on the basis of an absolute majority of votes of the members present at the session, with the exception of resolutions concerning the appointment or dismissal of a member of the Management Board, which shall be passed with a $\frac{3}{4}$ majority of the votes cast. The Management board: Resolutions are adopted by ordinary

majority of votes. In the case of a tie, the President of the Board has the casting vote.

65 G03Q022

What are the procedures established to review the performance of the board as a whole and the performance of the individual board members? Who is responsible for regulating the board members?

PFMI: Q.2.3.4

AGC: 7h

The Supervisory Board of KDPW S.A. supervises the activities of the Company by reviewing financial statements and reports of the KDPW Management Board as well as its recommendations on the division of profits or covering of losses, appointing and dismissing the Members of the Management Board and setting their salary levels and approving multi-annual and annual business and financial plans of the Company presented by the Management Board.

The number of Board members, the duration of the term of office (in accordance with the statutory norm), any additional rights for the President of the Board associated with supervising the work of the Board, as well as the manner of voting, the validity of Board meetings, extension or, as the case may be, limitation of competences of the Board in accordance with the Code of Commercial Companies are set out in the Statute of KDPW, i.e. by shareholders acting as the General Meeting.

Physical deliveries (PFMI Principle 10)

239 G10Q005

How are eligible securities lodged in the CSD system?

PFMI: Q.10.1.3

AGC: 57, 57a

- A registered certificate in the name of the CSD is delivered to the CSD.
- A participant delivers the security with a valid transfer deed or stock power or other transfer document to the CSD which then effects registration.
- A registrar re-registers the security in the name of the CSD.
- Not applicable
- OTHER: Securities are lodged into the depository system on the basis of a securities registration agreement concluded with KDPW by the issuer (for public securities) or the issue agent (for non-public debt securities). The issuer authorises a direct participant of KDPW (registration agent for public securities, issue agent for non-public debt securities) to act in its name in the registration process. The global amount of securities of a given ISIN is registered in KDPW on a registration account called an "issue account" and on participants' accounts managed by KDPW. On the basis of records made by KDPW, participants register securities on securities accounts and omnibus accounts in their own securities registration systems.

240 G10Q006

When are securities lodged into the CSD reflected in a participant's CSD account?

PFMI: Q.10.1.3

AGC: 58, 58a

- Securities are reflected in the participant's CSD account immediately upon delivery to the CSD.

In the event a participant's single or main account is blocked for any reason (e.g., insolvency, penalties, violations, liens), would securities held in any account or accounts on behalf of the participant's clients be accessible: By the participant's clients?

PFMI: Q.11.1.1
AGC: 44a

Yes [A01]

282 G11Q013

If yes, please describe briefly how clients of participants would access their securities and whether there would be any delay in their ability to do so:

PFMI: Q.11.1.1
AGC: 44b

Any securities charges (i.e.: liens) made on accounts managed by KDPW may only affect those accounts where the participant's own securities are registered. As a result of this a charge cannot limit access by a client of that participant to securities registered on the securities account managed by that participant. In the same way, the insolvency of a participant does not in itself lead to restriction of access by a client, since the client's securities do not make up the property of the participant, nor do they form that participant's assets. Only where the participation status of a given participant is suspended can their clients have difficulties in accessing securities they own which are registered on the client's securities accounts managed by that participant, since during the suspension period, all accounts managed for that participant in KDPW are suspended as well (this is the fundamental nature of participation). In such case (suspension of participant) the Polish Financial Supervision Authority may take a decision to transfer securities from accounts managed by this participant to another participant (who gave its consent to this action), where they are immediately accessible to the clients. The same situation may arise in the event of cancellation of participation.

KDPW has a dedicated Corporate Security Department, which prepares policy, methodologies, procedures and tools to manage any kind of operational and legal risks, inter alia, resulting in a loss of assets registered in the KDPW depository system. However, rights to securities arise as a result of entries on securities accounts, which are in effect carried out by the participants themselves. The aggregated amounts of assets kept on securities accounts with participants are equal to the balances on depository accounts in KDPW. The reconciliation process at the end of each day allows to identify any discrepancies between KDPW's depository accounts and participants' aggregated accounts and take any action to resolve them. Moreover, operational risk management and monitoring systems have strict procedures to deal with any kind of incidents that can occur in the KDPW processes and address ways how to cope with them. In case of direct material loss of a participant due to KDPW's own fault, the insurance policy might be activated to cover the loss. In addition, the assets of investors kept on securities accounts with participants are safeguarded using a compensation scheme, which is administered by KDPW and used to pay compensation to clients in the event of the bankruptcy of a participant or fraudulent dealings by participants.

Does the CSD guaranty settlement?

PFMI: Q.12.1.1
AGC: 66u.

Other: There is no settlement guarantee provided by the CSD. Clearing guarantee is accomplished by KDPW_CCP (wholly owned by KDPW, EMIR compliant), which clears transactions executed in cash and derivatives, on- and off-exchange markets.

PFMI: Q.12.1.3
AGC: 48a

Model 1 (gross settlement of both securities and cash) is applicable to the settlement of transactions in RTGS. Model 2 (gross settlement of securities with net settlement of cash via central bank) is applicable to the settlement in the batch system. Model 3 (net settlement of both securities and cash) is applicable to the settlement in the batch system for all guaranteed market transactions. The securities netting process is performed following novation in KDPW_CCP. At the end of the trade day (T), settlement instructions are sent to KDPW for T+2 settlements. Securities netting is an optional service. There are two options of securities netting functionality, full netting or directional netting (for each clearing account the securities settlement method may be chosen separately). The full netting method means there is one net settlement instruction for each clearing position, in directional netting two net settlement instructions are generated, respectively, for the buy and the sell clearing positions.

Participant Default Protections Resulting from a Participant Failure. If a participant defaults, how is the loss covered? (Choose all that apply?)

PFMI: Q.13.1.4

AGC: 76, 76d

- CSD insurance covers the loss
- The CSD guaranty fund covers the loss
- Loss is shared among participants
- Not applicable
- OTHER: KDPW_CCP, a subsidiary of KDPW, operates a guaranty system covering the losses of clearing members, represented by settlement agents in KDPW. KDPW_CCP uses a range of mechanisms, which reduce the risk of counterparty default on a systemic basis. The sequence of activating the resources of the clearing guarantee system is as follows: 1) the defaulting clearing member's credits; 2) the defaulting clearing member's margins (initial deposit, initial margin, additional margin); 3) default/guarantee fund – the defaulting clearing member's contribution; 4) KDPW_CCP

dedicated capital in the amount corresponding to at least 25% of the capital requirements; 5) basic contributions of KDPW_CCP's non-defaulting members to the guarantee fund; 6) KDPW_CCP own capital up to the level of 110% of the required capital; 7) additional contributions of KDPW_CCP's non-defaulting members to the guarantee fund capped at the level of the 50% of contributions' value resulting from the most recent update; 8) the remaining own funds of KDPW_CCP.

PFMI: Q.16.3.1

AGC: 62

The only eligible securities which are held outside the CSD are non-public debt securities which were issued before 1 July 2019 and may be registered in investment firms. The efficiency of handling these securities by KDPW comes from standardisation of procedures and systems of registration, safekeeping and corporate actions processing, which in KDPW are the same as for public-traded securities, including central distribution of information on corporate actions and registration on securities accounts, managed in accordance with stringent standards of the central depository system.

542 G16Q038

Regarding data security: Are passwords used by participants to access their accounts?

PFMI: Q.17.5.3
AGC: 71 71a.

Other: Participants have access to the Electronic System for Distribution of Information (ESDI/WEB) or the Electronic System for Message Distribution (ESDK). Data security is based mainly on individual cryptographic keys. ESDI/WEB: when a participant enters ESDI/WEB through website www.kdpw.pl, he has to enter login and password, and in the next step, select the appropriate certificate. When a participant enters directly (<https://esdi.kdpw.pl>), he has to select the appropriate certificate. ESDK as a system to system communication solution doesn't provide any user interface. Security such as authentication and data encryption is based on specific MQ digital certificate. Our new online system available from the internet is accessible using login/password and is protected by advanced threat analysis system delivered by our service providers.

AGC: 71f.

546 G16Q042

Is there a user lock-out after a pre-set number of unsuccessful User ID attempts?

*PFMI: Q.17.5.3**AGC: 71h.*

Other: Depends on the system. Some have lockout after 5 unsuccessful attempts (login/password). Systems using certificate do not lockout. Our online systems having access to the internet use sophisticated strategy to lock accounts. The accounts are locked based on the IP of the request and the passwords entered. The duration of the lockout also increases based on the likelihood that it is an attack.

ESMA has the power to impose the following supervisory measures: require the trade repository to bring the infringement to an end, issue public notices, impose fines or periodic penalty payments upon trade repositories and persons involved in trade repositories and as a last resort, withdraw the registration of the trade repository. Procedural rules for taking supervisory measures and imposing fines on trade repositories are described in article 64-73 of EMIR (Regulation No 648/2012 of 4 July 2012 on OTC Derivatives, central counterparties and trade repositories). The LEI ROC's specific possible enforcement actions: - Requiring audits of the system (including appointment of external auditors) for financial controls, business practices, data quality standards or other matters necessary to ensure the public interest. - Approval of policies for the recognition and termination of local registration agencies and LOUs.

Relevant Law and Regulation: There are equal conditions for holding foreign investor assets by custodians in the depository system. The Act of 29th July 2005 on Trading in Financial Instruments defines the system for registration of dematerialised securities comprising securities accounts, depository accounts and omnibus accounts kept by entities authorised to do so under this Act and maintained by KDPW (article 3, point 21). KDPW is in charge of registering securities on: 1) depository accounts; 2) securities accounts; 3) omnibus accounts. Balances on accounts managed by participants should correspond with the balances on the relevant depository accounts managed by KDPW (article 57). Omnibus accounts are dedicated only for foreign entities (article 8a). However, depository and omnibus accounts operate on the same principles, i.e. they are co-mingling securities belonging to clients of KDPW participants. In this way, the assets of foreign investors are not differentiated from those of other types of investors, but treated equally. Established terms and conditions of participation: Participants managing securities accounts and omnibus accounts in their systems are obliged to conform to the rules of managing the securities register (article 20, 24, 33, 33a of the KDPW Rules). The rules are similar for custodians and other participants who hold foreign or domestic

investor assets. Rules of the depository: The accounting scheme for recording and transfer of securities is determined by the KDPW rules (article 34-36 of the KDPW Rules) and there is no discriminatory treatment of foreign investor assets. The registration is carried out as expressions of quantity, according to the following principles: double-entry bookkeeping, separate registration of securities, classification by types of participant status (separation of the clients' assets from participants' securities), simultaneous registration (registration on accounts managed by a participant should reflect the balances on accounts managed in KDPW), completeness, integrity and transparency. The best accounting practices are applied and end-to-end audit trails are kept.

Rule 17f-7 requires that an Eligible Securities Depository provides periodic reports to its participants with respect to its safekeeping of assets, including notices of transfers to or from any participant's account. Does the CSD make available periodic safekeeping reports to participants, including notices of transfers to or from the participant's account?
